

1 Geographic Extent of Information

This atlas contains information within a significant portion of the Fisheries and Oceans Canada (DFO) administrative region known as the Pacific Region. This administrative region includes the entire Canadian Pacific Ocean Exclusive Economic Zone (EEZ), generally referred to as the 200 nautical mile limit.

The EEZ borders Pacific Ocean waters under the jurisdiction of the United States of America, both to the south (Washington State) and to the north (Alaska). The focus area in the atlas maps is situated in the northeastern portion of Canada's Pacific EEZ and is adjacent to Alaska.
